carried many a thousand passengers across the Kowloon Ferry, has been replaced by a larger and more powerful vessel of the same name, which will commence running on the ferry service to-morrow morning, between Pedder's Wharf and the Kowloop Godown Wharf. The new launch, which is a highly-commendable and very welcome result of Mr Dorábjee Nowrojee's enterprise, is a vessel of the following dimensions :- Length between perpendiculars, 75 feet; extreme breadth, 13 ft. 3 in.; depth moulded, 7 ft. She is fitted with compound surface condensing engines and on her trial trip attained a speed of 10.6 knots. She is seated for 50 Europeans and is licensed to carry in all 104 passengers, 80 more than her predecessor. She has a comfortable little cabin and is altogether a superior kind of ferry launch. The service between the city and Kowloon with this and the fine vessels of the Steam Launch Company ought to be pretty near perfection, and if matters could only be arranged so that the holder of a monthly or season ticket could take either launch that happened to be convenient, there would be nothing to complain of at all, and the result we believe would be highly advantageous not only to the public but to the launch proprietors as well. Meanwhile Mr Nowrojee. for the separation of Church and State, who was the first to run a launch on this According to the Hongkong version he adnow much used ferry, deserves the thanks of vocated separation. Shanghai is doubtless the community for the attention he has shown to the convenience and comfort of his passengers.

NEWS FROM BERLIN. Berlin, October 26. - The proposed conference between Prince Bismarck, Count Kalnoky and Premier Crispi bas been delayed until after Emperor William's visit to Turkey. The political importance of the event is not now denied. Bismarck's project is to construct a second defensive line behind the dreibund, consisting of England and Turkey, not committed by treaty to the special purposes of the Central European alliance, but linked by kindred interests. Hence he is manusurreing to commit Lord Salisbury to the new treaty with Turkey relating to the permanent occ pation of Egept.

NEWCHWANG. (From N. C. Daily News Correspondent.) 13th November.

The weather is getting very cold, but the thermometer is not lower than it was about the same period last year, and unless a sudden change takes place it is hoped there will not be any dangerous ice in the river for the next few days. Several steamors and some more salling vessels are still expected to load for the South, and natives are anxious to ship away the new peas, which are plantiful a little distance up the river, and cheaper than they have been for some time. We have not heard that a gunboat is to be stationed here for the winter. although there was a talk that the Merlin was to pay us another visit. It would be rather late to propare a dock now, even if a gunboat were ordered to take up winter quartors. No more rumours about a railway to Port Arthur, Shan Hai Kwan, Moukden or any other place, and we may look upon all such schemes as given up for many years. Telegrains are rather problematical advantages at times and it is said that the Chinese Government just now arrogates for its exclusive use the line between Tientsin and the south, but that an Urgent' message can be forwarded as before on payment of treble-the ordinary cost. When the necessity arises for extr payment-i.e., when the Government thinks proper to impose the extra tax, the public have a right to be informed, as it may be presumed that telegraphic communication is generally looked upon as a matter of 'urgency and it is not expected that a telegram will take as long to reach its destination as an ordinary letter by post. Now that there s so much correspondence anent Conventions, it would be well that, if the Government can at any time exclude the forwarding of messages by the public, the latter should be warned at once that communications shall be sent if marked 'Urgent,' mogennant the extra fee. Anyhow the Government would be in the position of increasing the dividends of the line at its own sweet will, but to keep back messages ad libitum makes telegraphing a most unreliable means of communication. In case of diplomatic disturbance between the Chinese Government and any other Power, the chances are that all the other nations will suffer through the exclusive right that may be arrogated. Such a misfortune cannot perhaps be provided against.

PEKING.

(From the Chinese Times.) H.E. Herr von Brandt is expected here about the loth, and when he arrives Baron von Ketteler leaves for Europe.

The members of the Italian Legation are now established, and soon we shall be able to see the colours of Italy floating in the breeze, together with the other pavillons. On the 28th ult. we had half a gale of bitterly cold wind, the first really cold | with Steamers from Shanglini and Japan weather of the season, and in the face of it | Ports, and at Vancouver with Pacific Coast an intropid globe-trotter set out for the Points, by the regular Steamers of the

Great Wall. Early on Sanday morning the snow began to fall, and continued to do so with only a slight cessation until yesterday afternoon, covering the ground to the depth of nearly 6 inches. This is exceedingly early in the season for a snowfall at Peking, and the natives say it is the forerunner of an early

and severe winter. Notwithstanding this very inclement weather and the time of the year, two other globe-trotters set out for the Great Wall, proving conclusively that this one of the wonders of the world has not yet lost its attractions, although one has to rough it very much to get there, and also that this year there is the great counter-

attraction in the way of the Eiffel Tower. . Three gentlemen from one of the Legations set out for the Great Wall the day before the snowstorm, but it was so bitterly cold that they 'right about turned' at Nankow and made what one can hardly call 'the best of their way 'back again,

OHI-NAN-FU.

2nd Nov. The chief literary examiner enjoyed him self for several weeks, and left over a week ago for his duties in Peking, The military examination is now on hand

with something over 1,000 to be examined. The Governor turned the chief control over to the General from Yen-chou-fu and the Provincial Judgo

The Governor is still busy with his Yellow River. The Dutchmen took a trip down to the mouth of the river, and on their return once more consulted with His Excellency. A few days after they saw the gap at Chang-o'hiu nearly closed, i again became a gap from the strong pressure of the waters. This makes the second or third attempt to close it which has subsequently failed. One of the missionaries, the Rev. M.

Chalfant, who has just visited the district of Chi-yang, gives a melancholy picture of the condition of the people, the majority of those whose homes were near the river being crowded to ether on the river embankment. In a few months the little grain they n w have will be gone, and oh, the outlook in the cold winter! The Governor is gaining for himself

good reputation for his compassion to the distressed. He seems to be exerting himself in that direction just now. Food relief is to be given for some three months in the cast and west suburbs of this city, and some 10 li north of the city. He has also issued various proclamations for the information of the people, and containing some fine sentences.

South of here there has been and is still quite an epidemio, much like choicia Hardly a village but has several coffins borne out each day to find rest in some grave. The epidemic has not yet reached the city, and we all hope we may be spared the calamity of last year. - N. O. Daily News correspondent.

THE CHINA REVIEW.

THIS Review, which was intended to meet the wants of many students of Chinese caused by the discontinuance of Notes and Queries on China and Japan, has roached its Eighteenth Volume. The Review discusses minds of students of the Far East' and about which every intelligent person connected with China or Japan is desirous of acquiring trustworthy information. It includes many interesting Notes and original Papers on the Arts, Sciences, Ethnology, Folklore, Geography, History, Literature, Mythology, Natural History, Antiquities, and Social Manners and Customs, etc., etc., of China, Japan, Mongolia, Tibet, and the Far East generally. Recently a new de-parture has been taken, and the Review new gives papers on Trade, Commerce, and Descriptive notes of Travel by well-known writers. It was thought that by extending

the scope of the Review in this direction, the Magazine would be mademore generally The Review department received special attention, and endeavours are made to present a caroful and concise record of Literature on China etc., and to give critiques embodying sketches of the Most recent works on such topics. Authors and Publishers are requested to forward works

to Editor, China Review, core of China Mail Office The Notes and Queries are still continued and form an important means of obtaining from and diffusing among students knowledge on obscure points:

The Correspondents' column also affords

farther and greater facilities for the interchange of views and discussion of various Original contributions in Chinese, Latin, or any of the Modern Languages are recoived. The papers are contributed by the members of the various Consular, the Imperial Customs, and Hongkong Services and also by the Missionary bodies amongst whom a high degree of Chinese acholarship is assiduously cultivated. Amongst the regular contributors are Drs. Chalmers, Eitel, Bretschneider, and Hirth, Professor

scribe to this scholarly and enterprising Review. - Northern Christian Adrocate (U.S.) The China Review * * * has an excellent table of contents. - Celestial Empire. The Publication always contains subjects of interest to sojourners in the Far East and

the present issue will hold favourable if not

advantageous comparison, with preceding numbers.'-Celestial Empire. This number contains several articles of interest and value. — North-China Herald. The China Review for September-October fully maintains the high standard of excellence which characterises that publiation, and altogether forms a very interesting and readable number. Meteorologists will find an interesting and valuable contribution by Dr. Fritache. on the Amount of Precipitation (Rain and Snow) of Peking," showing the results of observations made at the Imperial Russun Observatory at Peking, from 1841 to 1880. ... Notes on the Durch Occupation of Formosa," by Mr. Geo. Phillips, contains some interesting information, although much of it is second-hand. The Notices of New Books include a most generous and appreciative review of "The Divine Classic of Nan-Hus," and the Notes and Queries are as usual very interesting."-North China

Daily Neics

'A substantial and reliable Review which all students of China and the Chinese would do well to patronice. - Chrysanthemiun. The November-December number of the China Review contains less variety than usual, but the few articles are very interesting. The opening paper by Mr Herbert A. Giles on "The New Testament in Chiness" treats of a question that must necessarily be of great importance in the eyes of all missionaries. Mr R H. Parker's "Short Journeys in Szechuen." are continued, and a goodly instalment of these travels in the interior of China is given. Mr F. H. Balfour contributes a paper of some length entitled "The Emperor Cheng, founder of the Chinese Empire," which will be read with genuine interest by students of Chinese history, A few short notices of New Books and a number of Notes and Operies, one of which On Chinese Oaths in Western Borneo and Java" might appropriately have been placed under a separate heading, complete

the number, H.K. Daily Press,

Trubner's Oriental Resord contains the following notice of the China Review :--The present publication, judging by the number now before us, is intended to tention that has been bestowed of late years and all other nows, are given in full as apon the investigation of Chinese literature. antiquities, and social developments, to say The Overland China Mail, by the con- nothing of linguistic studies, has led to the scholarship is now assiduously cultivated. posted from the China Mail Office to sub- number of the Revisio by papers highly scribers, on their addresses being forwarded creditable to their respective authors Some translations from Chinese novels and plays are marked by both accuracy and fresh. ness of style; and an account of the career of 0.25 the Chinese post-statesman of the eleventh century, Su Tung-p'o, by Mr. E. C. Bowra, is not only historically valuable, but is also distingulated by its literary grace. Beside actions of new books relating to China and the East, which will be a useful feature of the Review, if carried out with punctuality and detail, we are glad to notice that Notes and 'Queries' are destined to find a place in its pages also. It is to be hoped that this opening for contributions on Chinese subjects may evoke a similar degree of literary real to that which was displayed during the lifetime of its predeconsor in the field, and that the China Review may receive the support necessary to insure its continuance.
